

THE MARA PARTNERS

Not Nearly Exhaustive Enough List of Recommended Resources and Toolkits for Further Reading

Climate Justice

- www.AJustClimate.org, Center for American Progress
- Dr. Beverly Wright, Founder and Executive Director of the Deep South Center for Environmental Justice
- Dr. Mildred McClain, Founder of Harambee House/Citizens for Environmental Justice
- Felicia Davis, Founder of HBCU Green Fund
- Sherri L. Mitchell Weh'na Ha'mu Kwasset: See All We Can Save and [Sacred Instructions](#): Indigenous Wisdom for Living Spirit-Based Change, published by North Atlantic Books on March 20, 2019
- Donors of Color Network

Equitable Meeting Design, Negotiation and Mediation Theory

- For more on public dispute resolution, the benefits of devising seminars (as an accelerant to progress in formal negotiations, etc.) see Professor Larry Susskind: <https://susskindreader.mit.edu>
- The Jemez Principles
- For more on provocative competence: Yes to the Mess, Frank Barrett
- For an excellent alternative to traditional meeting “ground rules” and deep work on racial equity, see: The Equity Lab REDI Agreements
- For sample negotiation preparation checklist from Harvard University’s Program on Negotiation
- For Interviews with US Secretaries of State on their foreign policy negotiations see the American Secretaries of State project
- For more on identity triggers and approaches to addressing them, see “Action Design and Overcoming Organizational Defenses” by Chris Argyris
- A Practice Guide for Mediators, Lawyers and Other Professionals, by David Hoffman and the Boston Law Collaborative. Chapter 8: Cultural Diversity Issues in Mediation
- For more on the cultural differences and biases of negotiators see: *Cultural Differences and Cognitive Dynamics: Expanding the Cognitive Perspective on Negotiation* by Michael W. Moore and Michele J. Gelfand

Climate and Gender Books

All We Can Save, edited by Ayana Elizabeth Johnson and Katharine Wilkinson

Diversifying Power by Jennie C. Stephens

Stakeholder Engagement models at the intersection of gender and climate:

- Stakeholder engagement in gender and climate change policy processes: Lessons from CCAFS

Difficult Conversations

- Difficult Conversations by Douglas Stone, Bruce Patton and Sheila Heen, Forward by Roger Fisher
- Difficult Conversations Lab, Columbia University, Professor Peter Coleman

Gender Smart Investing

- GenderSmart Investing Report
- The Hive Fund
- The 22 Fund, Tracy Gray
- Shifting the Burden of Economic and Moral Case-Making by Denise Hearn
- Women in Sustainable Energy & Infrastructure Inc. (WISE), Dr. Sharron McPherson

Data Feminism

- Catherine D'Ignazio, MIT Data + Feminism Lab
- Alexandra Pittman
- Data 2X

Rural Renewable Energy Innovation

- www.TheHumanElementMovie.com

Green Livelihoods and Women in Stem

- Women Leading the Green Recovery

United Nations (NDC, UNFCCC, COP, etc.) related

- WEDO generally and Gender Climate Tracker see: WEDO
- EIGE report

Climate, Gender and Conflict

- For examples of women leading at the intersection of natural resources, climate change and conflict in Colombia, Sudan and Nepal see the paper: The Climate Gender Conflict Nexus: Amplifying Women's Leadership at the Grassroots by JESSICA M. SMITH, LAUREN OLOSKY, AND JENNIFER GROSMAN FERNÁNDEZ

- The UN Women 2020 report “Gender, Climate, and Security: Sustaining Inclusive Peace on the Frontlines of Climate Change”

Global Examples of Women’s Leadership on Climate

- ActionAid (UK) “Why Climate Change is a Gender Issue” with specific example of women’s leadership in disaster response in communities in Vanuatu

Engaging Men in Women’s Empowerment (Climate Related)

- Promundo

Gender, Agriculture and Deforestation

- For more on the 20-30% improvement in crop yields if women had the same access to capital, land tenure and inputs (thereby increasing a nation’s GDP and reducing encroachment into forests, see FAO)

Interesting Partnership Models

- Livelihoods fund for Family Farming (L3F) – supporting women farmers, for example, in Northern Ghana and originally started with investments and support of MARS, Inc., Danone, Veolia, Firmenich, USAID (and the Government of Ghana), CARE, etc. For more information see (We note this as an example of the type of architecture that could be replicated while adding an environmental lens)

Inclusive Community Engagement Models

- Knology
- Center for American Progress (recommendations for Mayors)
- Uprose
- World Bank

Gender, Girls Education and Climate Change

- For more on the need for “empowering” and quality education for girls and the impacts on climate, see: Christina Kwauk
